

Dear friends and fellow church members,

As Christian Scientists, we know how important the Bible Lesson is, and how its invaluable message contributes to our individual and collective spiritual growth.

Many of us have participated in Bible Lesson or Bible study groups, and have found them immensely helpful in better understanding the message of our Pastor.

For this reason, there's an opportunity to get together and study the Bible Lesson once or twice a month in our Christian Science Reading Room at 178 Nassau Street in Princeton. This will be an informal reading and sharing, with the structure to be determined by the group that gathers. All you'll need is your marked books or the Bible Lesson in some other form. These will be available at the Christian Science Reading Room if you do not have your own.

Our next gatherings are planned for 10:30-11:30 a.m. on the following Saturdays:

- November 18
- November 25
- December 9
- December 16.

We'd love to have you join us! For more information, contact the Librarian at readingroom@csprinceton.org.
